Subject: Summer Meals Data Reporting – Comment Period Ends Monday!
Date: Thursday, June 04, 2015 10:08:41 AM

FNS needs to hear from State agencies and Program operators as we develop proposals to modify reporting requirements and improve our ability to track participation in summer meals for children. On March 9, FNS published a notice in the Federal Register to request public comments on modifying reporting requirements for State agencies and sponsors. We are interested in information about data that sites, sponsors, and State agencies currently collect, but do not report to FNS, as well as the feasibility of obtaining currently reported data in a timelier manner. We are particularly interested in the opportunities and challenges associated with these changes. Please share this information with schools and organizations that operate the Summer Food Service Program or the National School Lunch Program Seamless Summer Option and encourage them to comment. **To be assured of consideration, all comments must be submitted on or before June 8, 2015**. A copy of the notice and guidance on submitting comments is available at https://www.federalregister.gov/articles/2015/03/09/2015-05314/request-for-information-summer-meal-programs-data-reporting-requirements.
