Subject: New Census Data Released

New census data has been released for use in fiscal year 2015 for the purposes of determining area eligibility in the Child and Adult Care Food Program, the Summer Food Service Program (SFSP), and the Seamless Summer Option (SSO) of the National School Lunch Program. The new data has been incorporated into the FNS Area Eligibility Mapper located at <http://www.fns.usda.gov/areaeligibility>. When using census data to determine area eligibility, the most recent data available must be used. FNS will release these data annually in October to encourage early recruitment and approval of SFSP and SSO sites and increase Program access.
