Subject: NOW AVAILABLE! The CN Label Verification Report

NOW AVAILABLE!
The CN Label Verification Report

The Nutrition, Education, Training, and Technical Assistance (NETTA) Division in FNS' Child Nutrition Programs has taken great strides to address concerns expressed by state officials, school program operators, and the industry regarding acceptable documentation during an administrative review. As a result, NETTA created the CN Label Verification Reporting System.

The CN Label Verification Reporting System was developed to assist State agency reviewers, CN program operators, and the food industry to verify the status of a CN Label and the validity of a CN Label copied with a watermark. The new system produces two comprehensive monthly reports:

- CN Label Verification Report - http://www.fns.usda.gov/sites/default/files/cn/cnl_verificationreport.pdf; and
- CN Label Manufacturers Report - https://origin.drupal.fns.usda.gov/sites/default/files/cn/cnl_manufacturersreport.pdf.

The CN Label Verification Report includes all information pertaining to the valid CN Label which includes the crediting information (meal pattern contribution statement); label expiration date; and the manufacturer's establishment number. This new online report replaced the previous authorized list published on the CN Labeling Web site (<http://www.fns.usda.gov/cnlabeling/child-nutrition-cn-labeling-program>).

The CN Label Manufacturers Report includes the contact information for all manufacturers that are authorized to produce CN Labeled products. The users will be able to link the manufacturer's list from the CN Label Verification Report.
