LDOE Weekly Newsletter

August 9, 2016

Superintendent's Message

Dear Colleagues,

I hope that your school year is off to a good start. There is no time like the first week of school.

We started the week by announcing positive results from the spring. This year, Louisiana students earned 845 more AP credits than last year. Over the last four years, the number of credits earned annually has more than doubled. Students taking dual enrollment courses and then validating their achievement through CLEP tests also saw record gains; the number of CLEP credits earned in Louisiana more than doubled this year alone. To find more about AP and CLEP gains, please read our [news release](#).

The first weeks of school create an opportunity to put last year's results to work for students in the year to come. Embedded in the results is information about each student's strengths and weaknesses that can assist both teachers and parents in helping children to grow this year.

In the weeks to come, schools across the state will host parent events or back-to-school nights. Schools and teachers alike can use these opportunities to share with parents their children's [2016 LEAP reports](#). Using this [presentation](#), they can provide parents an overview as to what is contained in the report, and using this [guide](#), they can host individual conversations

about the reports and the results they contain.

Tests are meant to provide a snapshot. They do not tell the whole story, but they provide important and objective evidence that can be used to identify challenges and to plan for overcoming those challenges. A good start to the year, therefore, involves identifying how students ended last year and what goals they and their parents have for the year to come. I wish you luck in laying that important foundation, and I look forward to more positive results in the year to come.

As always, thank you for all you do for our children,

John

New and Improved ELA Guidebooks 2.0

[ELA Guidebooks 2.0](#) is an English language arts curriculum for whole-class instruction. Made by teachers for teachers, the guidebook units ensure all students can read, understand, and express their understanding of complex, grade-level texts.

Each ELA Guidebooks 2.0 unit comes with three unit assessments and approximately 40 classroom-ready daily lessons on an online platform. The lessons include everything a teacher needs to teach. Teachers can focus on adjusting the lesson supports so all students meet the lesson and unit assessment goals, instead of spending time finding something to teach.

The Department released the [ELA Guidebooks 2.0](#) in June and has added more resources over the summer:

- Updated [ELA Guidebooks 2.0 webpage](#)
- [More units available](#) at each grade level
- Downloadable [student materials](#) for each unit
- Short informational videos for each grade level
 - [Overview](#)
 - Videos for standards, texts, assessments, and lessons are coming soon!
