

Team Up for School Nutrition Success!

Team Up for School Nutrition Success (Team Up) is a unique learning experience that provides tailored technical assistance to school nutrition programs that want to maintain a healthy environment and high student meal program participation.

How does *Team Up* work?

- ⤴ *Team Up* uses a workshop and mentoring model. Workshops include panel discussions of creative solutions for planning, preparing, and serving healthy meals.
- ⤴ Workshops pair participants with a mentor for effective peer-to-peer assistance on a variety of topics.
- ⤴ School nutrition directors develop specific goals and targeted action plans for their school meal program.
- ⤴ Representatives from allied organizations offer free resources to support school meal programs.

- Human Resources**

What Participants Are Saying

"After attending, I can be more confident in my decisions. It helps to have new ideas and support for other things I have been considering changing in my district. I met many other food service professionals. The networking and ideas are priceless!"

"I want to take these [Team Up] resources back to share with others. We're here to network and learn from each other, to make sure child nutrition is a fantastic program, because we are feeding our future."

"Over my years of working in this business and attending many training sessions, this was one of my top 10. The information was presented clearly, everyone was engaged in sharing, and the presentations were helpful and doable."
